

Dub Spencer & Trance Hill

SYNCHRONOS

Echo Beach EB215 (CD/LP/Digital/Atmos) Release date October 17, 2025

Dub Spencer & Trance Hill once again realize their musical vision with their new release **SYNCHRONOS**: The perfect hybrid of dub and trance - analog, danceable and at the forefront of sound technology.

With **SYNCHRONOS**, Dub Spencer & Trance Hill present an album that defies conventional categories. The new tracks surprise and guide the listener into a colorful world of sound - an acoustic kaleidoscope in which diversity becomes a principle. Musical components - dub, trance, dance, techno, rock, jazz - are put together by the musicians in new and unexpected ways. Experimental, multi-layered and always good for surprises, yet inevitably club-ready: That's Dub Spencer & Trance Hill.

In contrast to the digital ethno, downtempo and trance scene, the four Swiss musicians rely exclusively on analog instruments: drums, bass, guitar, keyboards - refined with numerous dub effects and sound gimmicks. Thus **SYNCHRONOS** was entirely recorded live in the studio without the use of computer-controlled backing tracks or loops. Stylistically, Dub Spencer & Trance Hill continue undeterred on the path they took with their previous album "Imago Cells": Leaving classic song structures more and more behind, they focus on catchy, hypnotically repetitive grooves, once again emphasizing the trance element in their music.

Is this how danceable soundtracks for the head cinema are created? For sure! After all, it's ultimately about letting go, about being seduced and carried away: for one track, for one album, for one concert. Getting out of everyday life, having fun, dancing the night away - that's **SYNCHRONOS**.

SYNCHRONOS will be released on October 17, 2025 (Echo Beach) on all common formats and platforms; the album will also be released as a Dolby Atmos mix (3D audio) for audiophiles.

Dub Spencer & Trance Hill present **SYNCHRONOS** 2025/26 on an extensive club tour. Sound wizard and Dubmaster Umberto Echo will be joining them once again, mixing the concerts live in surround sound. Expect the energetic performance by Dub Spencer & Trance Hill to be expanded by a new sound dimension that guarantees a spectacular listening experience - "wow effect" included.

Dub Spencer & Trance Hill
SYNCHRONOS
